

Hello,

This is John Ogbin from Hopewell Crest School with some important announcements. Tomorrow is packet drop off for grades 5 through 8. Please visit [www.hopewellcrest.org](http://www.hopewellcrest.org) and view the parent letter for drop off locations. This morning we received the remainder of the chromebooks for our 2nd through 8th grade students. We are working now to get them setup and ready for distribution. At this point if you are in 2nd through 8th grade and you do not have a chromebook, laptop, or desktop computer you need to email me at [jogbin@hopewellcrest.org](mailto:jogbin@hopewellcrest.org) to get a chromebook. For those of you who have a chromebook please see the message below for a fix to a common problem users are having with blocked sites. As always, we are here to help. Please feel free to reach out to your child's teacher or an administrator for answers to your questions.

### **Barracuda Fix Message**

Some users are experiencing internet blocking when using chromebooks. This is most likely due to the Barracuda Web Filtering Extension. If the WSG box looks grey it is inactive and will not allow access.

Click the box and select sync. This will refresh the link and the box should turn blue if it is successful. Make sure you are connected to your home Wifi. The shield should be white when connected.

Thank you and have a great day!
