

## **What's Happening at Hopewell Crest?!?!?!**

If you have driven past Hopewell Crest School recently you may have noticed a lot of construction taking place. That construction is part of our parking lot expansion project. Once construction is complete, we will have a larger parking area (approximately 75 more parking spots), a new ADA compliant playground, and the baseball/softball diamond will be relocated. The project has been underway for the summer and we expect to have it completed before school begins in September. If you have any questions about the project, please contact the main office at 856-451-9203.
