

Good morning Hopewell Crest,

As you may know, New Jersey has issued a Statewide Polystyrene Foam Products ban that goes into effect as of May 4, 2022.

This ban may have an impact on how we package and provide food in your School Cafeterias.

Sodexo has been in communication with the New Jersey Department of Environmental Protection in an effort to receive a waiver which will allow your District to continue to use Polystyrene Foam products for an additional year.

We are actively working towards securing these waivers and we are targeting to have these waivers in place prior to the May 4th deadline.

In the interim, we have been in contact with our Procurement Team to obtain alternate products after May 4th in an effort to prevent any conflict with New Jersey's State Law banning the use of Polystyrene Foam Products.

We will continue to provide you with updates as we work through this process.

With regards,

Robin Carman
